

WE CAN SAVE YOU MONEY!

VOICE • DATA • AUDIO • VIDEO • FIBER

Futra Solutions Inc. is a complete business technology solution. We offer the latest generation of phones, computer, and networking solutions. Partnered with our outstanding customer service, we keep your business running while keeping within your budget. Call us today to schedule a free business technology evaluation.

Introducing: HOSTED PHONE SOLUTIONS

We now offer a hosted phone solution. This option is customizable and allows us to build a solution that fits your business' exact needs, while reducing costs. Here is how we determine what we offer that could benefit you:

- 1 *What kind of phone system do you currently have?*
- 2 *What is your current bill with equipment charges?*
- 3 *How many phones/numbers do you have?*
- 4 *What is the estimated use of your phone? Calls per day? Minutes per call?*
- 5 *What is the most concurrent phone calls you have going during a day?*

With this information we are able to create a rough draft estimate of how much we can save you. On average you can save 50% percent!! If you end up needing new equipment, we have many options and price ranges to fit all budgets and needs. On average, the savings you will see with our service will pay for the new equipment in less than two years!
